OBJECTIVE

Innovative Full Stack Developer with a strong foundation in Programming and Problem solving. Proficient in Multiple Programming languages and Development tools. Passionate about staying up-to-date with emerging technologies Currently Focusing role for Front end Developer

SKILLS

- Html, Css, Java Script, Node JS, Express Js, Ejs Tags, Python (Persuing)
- React JS, Redux, Bootstarap, Tailwind Css, Ux/Ui Design (Colour Theory)
- API integration, Generative AI, Cursor AI.
- Deployment:-Netlify,Vercel
- Api Testing Tool: Postman,Thunder Client
- Database:MongoDB

PROJECTS

- **Task Manager Pro Application**
Designed and developed a responsive To-Do List Application using HTML, CSS, and JavaScript. The application allows users to create, edit, and delete tasks, and mark them as completed.

Features:
 - User authentication using local storage
 - Task creation, editing, and deletion
 - Marking tasks as completed
 - Filtering tasks by status (all, completed, pending)
 - Responsive design for mobile and desktop devices
Technical Skills Used:
 - Front-end: HTML5, CSS3, JavaScript (ES6+)
Achievements:
 - Implemented a responsive design that adapts to different screen sizes
 - Improved application performance by optimizing JavaScript code
- **Profile Card Generation Application**
Description:
Developed a Profile Card Generation Application using HTML, CSS, and JavaScript. The application generates a profile card with user's name, title, image, and social media links.

Technical Skills Used:
Front-end: HTML5, CSS3, JavaScript (ES6+)

Achievements

- Successfully implemented a functional profile card generation application
- Demonstrated understanding of HTML, CSS, and JavaScript concepts

- **Currency Converter Application**

Developed a real-time Currency Converter Application using HTML, CSS, JavaScript, and Exchange Rate API. The application enables users to convert currencies instantly.

Technical Skills Used:

- Front-end: HTML5, CSS3, JavaScript (ES6+)
- API Integration: Exchange Rate API
- Version Control: GitHub

Achievements:

- Successfully integrated Exchange Rate API for real-time currency conversion
- Implemented a user-friendly interface with responsive design
- Demonstrated proficiency in JavaScript, HTML, and CSS

- **Dynamic Error Page**

Designed and developed a dynamic error page using HTML, CSS, JavaScript, and Node.js. The page provides customized error messages and instructions based on error codes, enhancing user experience.

Technical Skills Used:

- Front-end: HTML5, CSS3, JavaScript (ES6+)
- Back-end: Node.js
- Version Control: GitHub

Achievements:

- Successfully integrated Node.js to handle error page rendering
- Implemented dynamic error messaging using JavaScript
- Ensured responsive design and accessibility compliance

- **Student Registration Form**

Developed a user-friendly Student Registration Form using HTML, CSS, JavaScript, and ReactJS. The form enables students to register for courses, providing a seamless and interactive experience.

Technical Skills Used:

- Front-end: HTML5, CSS3, JavaScript (ES6+)
- Framework: ReactJS
- Version Control: GitHub

Achievements:

- Successfully implemented a responsive and interactive form using ReactJS
- Utilized JavaScript to validate user input and provide real-time feedback
- Ensured accessibility and cross-browser compatibility

- **Landing Page**

Designed and developed a visually appealing Landing Page using HTML, CSS, JavaScript, ReactJS, and React Router DOM. The page showcases key features and benefits, guiding users to take desired actions.

Technical Skills Used:

- Front-end: HTML5, CSS3, JavaScript (ES6+)
- Framework: ReactJS

- Routing: React Router DOM
- Version Control: GitHub

Achievements:

- Successfully implemented a responsive and interactive design using ReactJS
- Utilized React Router DOM to enable seamless navigation and routing
- Optimized page loading and performance using JavaScript and CSS techniques

- **Expense Tracker Application**

Designed and developed a user-friendly Expense Tracker application using HTML, CSS, and JavaScript, leveraging Prompt AI and Cursor AI in VS Code for enhanced coding efficiency. The application enables users to track and manage expenses, providing a total amount spent.

Technical Skills Used:

- Front-end: HTML5, CSS3, JavaScript (ES6+)
- IDE: VS Code
- AI-powered Coding Tools: Prompt AI, Cursor AI
- Version Control: GitHub

Achievements:

- Successfully implemented a responsive and interactive design using JavaScript
- Utilized JavaScript to validate user input and provide real-time feedback
- Ensured data persistence using local storage
- Improved coding efficiency and accuracy with Prompt AI and Cursor AI integration

- **Login Option**

Designed and developed a secure and efficient Login Option feature using React, Redux, and React Query. The feature enables users to authenticate and access protected routes, ensuring a seamless user experience.

Technical Skills Used:

- Front-end: React, Redux, React Query
- State Management: Redux
- Data Fetching: React Query
- Version Control: GitHub

Achievements:

- Successfully implemented a secure authentication flow using React and Redux
- Utilized React Query to manage data fetching and caching, improving application performance
- Ensured a seamless user experience through responsive design and intuitive interface
- Implemented robust error handling and validation using Redux and React Query

COURSE WORK

- Successfully Completed Full Stack Web development Course With Generative AI By **Masync Tech Coding School**
- Successfully Completed Full Stack Web development Bootcamp-2024 and get Certified

INTERNSHIP

- Completed One month Remote Internship Program by Code IT Solution

EXPERIENCE

01-06-2024 - Till Date

- **Accounts Executive**

Hatti Food and Beverages Pvt Ltd

*Handling day to day transaction of accounts

*Book Keeping ,Gst Filing, Tds Filling ,E way Bill

*Purchased Entry,Sales Entry,Bank Reconciliation,Vendor Account Reconciliation

LANGUAGES

- Kannada English Hindi

HOBBIES

- Reading News Paper
- Watching Coding related videos
- Solving Coding Challenges in Leetcode,
Solving Puzzles
- Playing Cricket
- Doing Meditation, Yoga,Gym
